

Bill 259 PH 3/12/14

My name is- Moulton Marston, 3 Sharon Court, Bethel, CT 06801 mpmarston@snet.net

The upcoming attempt to legalize Bill 259 seems like a direct blow to the safety of our children and teenagers.

I have operated a Real Estate Business in Bethel for over 35 years and this proposal seems to be without any value to Connecticut and its population centers. My age is 85 years and I have grandchildren and great grandchildren and it seems that this change is not a benefit of any kind. My family, and the families of the sales people who have helped our office all have similar family situations and would be willing and happy to sign letters stating their feelings that the safety and protection of the present law is vital.

The events that have occurred recently in Connecticut, such as the Newtown tragedy and others, underlines the fact the our KIDS deserve the maximum protection that can be employed.

Thank you for reading my note; I pray that this situation will iron out properly.

Sincerely yours,  
Moulton Marston
